

Help our family rebuild.

Troy Barile-Simleness and Shawn | Las Vegas

A direct request for help

After months of interrupted income, public accusations and frightening law-enforcement encounters, Shawn and I are struggling to cover rent and essential household bills. I am seeking temporary support while continuing to work, publish and pursue official records.

Why you can examine the record

I preserved original interview excerpts, dated correspondence and selected source documents concerning the allegations made about me and their consequences. The public account distinguishes what those records establish from questions that remain unresolved.

How to help

You can contribute directly through the options on my support page, commission a defined research or website project, or share the page with someone able to help. Personal household support is kept separate from contributions supporting published journalism.
